

**Year Group:1**

**Term: 2**

# Bournville's Chocolate Bonanza!

## Theme Overview

**Let's delve into the Cadbury family and their impact upon the city of Birmingham. We will be researching how Cadbury had a lasting impact on the city and its workers. The members of the Cadbury family will be looked at and how they had an effect on the wider community ranging from women's vote and the transportation of goods to make the final product of chocolate. Finally, we will be delving into the changes in product design and advertising.**

## Knowledge Base

- To understand the changes within living memory around Bournville ,the town and the factory
- To know the change in national life in terms of factory work and living within Bournville between 1860 and the modern day
- To know events beyond living memory that are significant nationally or globally regarding the anniversary of the Cadbury factory and homes and the impact of the philanthropists upon the West Midlands
- To know the significance of George Cadbury on Birmingham's workforce in terms of job dependency and living conditions.
- To know the impact of Candia Barrow Cadbury on Birmingham's women and their right to vote.
- To understand geographical similarities and differences through studying the human and physical geography of Bournville between 1860 and the present day
- To use simple fieldwork and observational skills to study the geography of Bournville and its grounds and then the key human and physical features of its surrounding environment to transport resources to make the product (coco beans, milk, sugar cane, card, plastic)

## Skills

- To locate Bournville on a map of Birmingham
- To use primary fieldwork to gather information
- To use secondary resources such as books and the internet to find out about the past
- To order time events
- To reflect upon the changes of their local history
